*Spec Sheet*

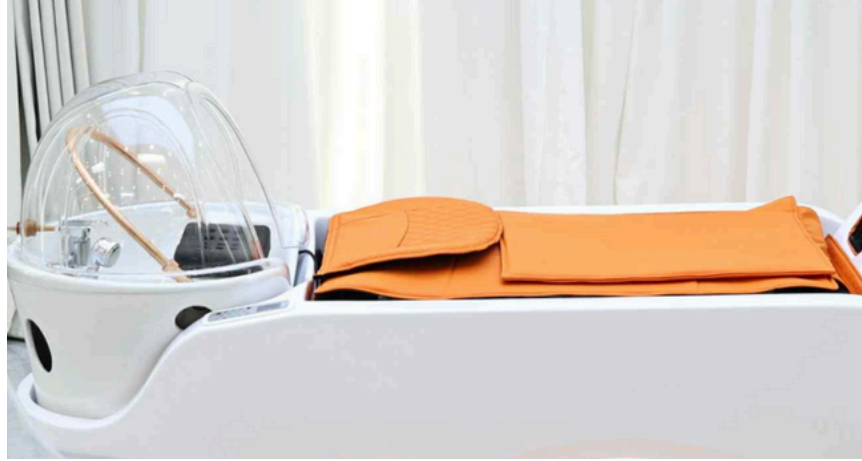

## LUXURY SCALP MASSAGE BED — PLUMBED SPECIFICATIONS

### Luxury Scalp Massage Bed – Plumbed Model

ENGINEERED FOR COMFORT, EFFICIENCY, AND MODERN SPA INTEGRATION.

**Overview:** The Luxury Scalp Massage Bed - Plumbed is the widest scalp massage bed available, *designed for comfort and versatility*. Suitable for clients of all sizes, this bed is crafted to offer a luxurious, relaxing experience. With features like a widened backrest, ergonomic design, and modern therapeutic technology, this bed ensures an exceptional spa experience.

### Key Features

- **Ergonomic Design:** Plush, elastic mattress offering supreme comfort, support, and durability, wrapped in waterproof, breathable fabric.
- **Widest Bed on the Market:** The backrest is 23.6 inches, broader than standard beds, making it more comfortable and suitable for larger clients.
- **High-Quality Materials:** Durable and easy-to-clean upholstery with a stylish finish.
- **Adjustable Settings:** Customizable for different treatments and client comfort.
- **Airbag Leg Compression:** Gentle compression for muscle relief without rollers.
- **Back Massage & Heating Features:** Enhances relaxation during treatments.
- **Water Circulation System:** Equipped with a water circulation system for a continuous flow during scalp treatments.
- **Fumigation Unit:** Integrated steam component for therapeutic treatments, providing gentle fumigation to enhance the scalp and hair treatment experience.
- **Weight Capacity:** Supports up to 425 pounds, ensuring durability and safety.
- **Panel in English:** User-friendly control panel in English for ease of operation.
- **Instructions Manual in English:** Comprehensive manual provided with each order.

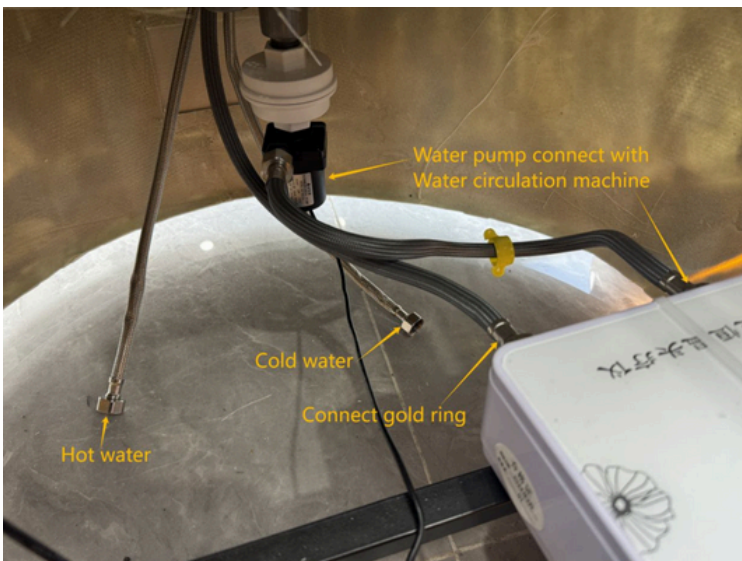

## Plumbing Requirements

- **Water Supply:** Requires hot & cold water connections.
  - **Hot Water Pipe:** 2 cm
  - **Cold Water Pipe:** 2 cm
- **Drainage:** Must be connected to the sewer system.
  - **Sewer Pipe Connection:** 1 1/2 inch

**NOTE:** Plumbing is designed to come from the floor, similar to a pedicure chair installation. Proper installation should comply with local plumbing codes and regulations.

- **Dimensions:**
  - **Length (non-working state):** 70.9 inches
  - **Length (working state):** 74.8 inches
  - **Width:** 29.9 inches
  - **Height:** 24.8 inches

## Electrical Requirements

- **Power Supply:** 120V US Standard
- **Power Consumption:**
  - Water circulation machine: 800W
  - Fumigation machine: 1000W

## Installation & Maintenance:

- **Installation Services:** Professional installation required.
- **Maintenance:** Regular cleaning & annual servicing recommended for optimal performance.

**Standard Warranty:** 1-year warranty
