IT IS THE RESPONSIBILITY OF THE PURCHASER AND/ OR THE INSTALLER TO ENSURE THAT THE BOWLS AND ITS' INSTALLATION CONFORMS TO ALL LOCAL PLUMBING CODES.

WARRANTY

Any alterations, addition, or deletion made to the sink will void the warranty.

CARE & CLEANING

Keep your product looking new by rinsing it thoroughly after each use.

Because of the detrimental effects that mineral deposits, soap scum, and hard water stains have on finished surfaces, it is important to keep your sink and the fixtures clean on a regular basis.

Use the recommended information described in this section. Use of other cleaning materials and/or methods may harm your sink and will void the warranty. Failure to perform periodic maintenance on your sink may cause health and/or safety problems, also possibly harming the bathtub, pump, or piping, voiding all warranties.

Do not use wire brushes, metal sponges, knives, steel wool, or scouring pads on any part of the sink.

Do not use abrasive cleaners or solvents including but not limited to petroleum based solvents such as paint thinner, acetone or abrasive cleanser on any part of the sink.

We recommend that, once a week, wash all exposed surfaces of the sink with a mild solution of vinegar and water. Check for stubborn spots. Oily or greasy spots can be lifted with denatured alcohol. Wipe off with clean warm water until dry.

ROUGHING-IN

**DO NOT USE ANY PORTION OF THE PLUMBING FOR LIFTING OR POSITIONING THE SINK.
