

Installation for Massage Chair (SL700, LS800)

1. Make installing holes as illustrated in fig 1.

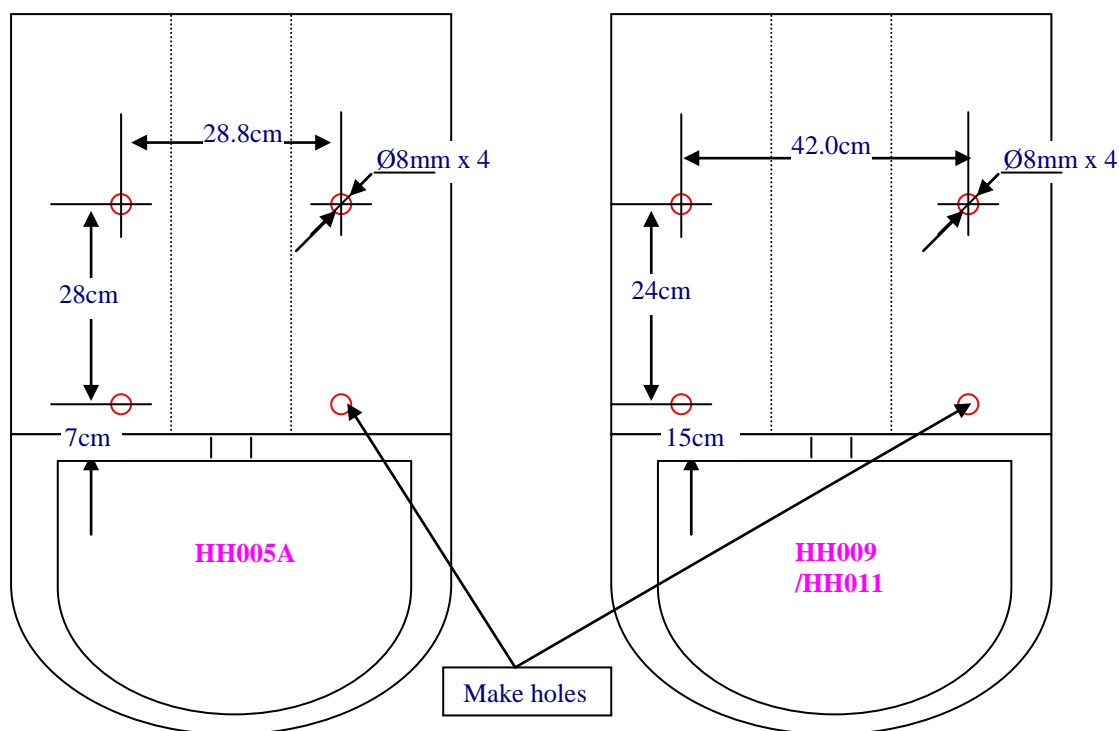

Fig. 1 Installing holes position
for Swivel

Fig. 2 Installing holes position
With Metal Joint, Only
For HH009/HH011

If you need the Metal Joint MJ-001 for installing between tub and chair, Please refer to the Picture 2 for Holes position.

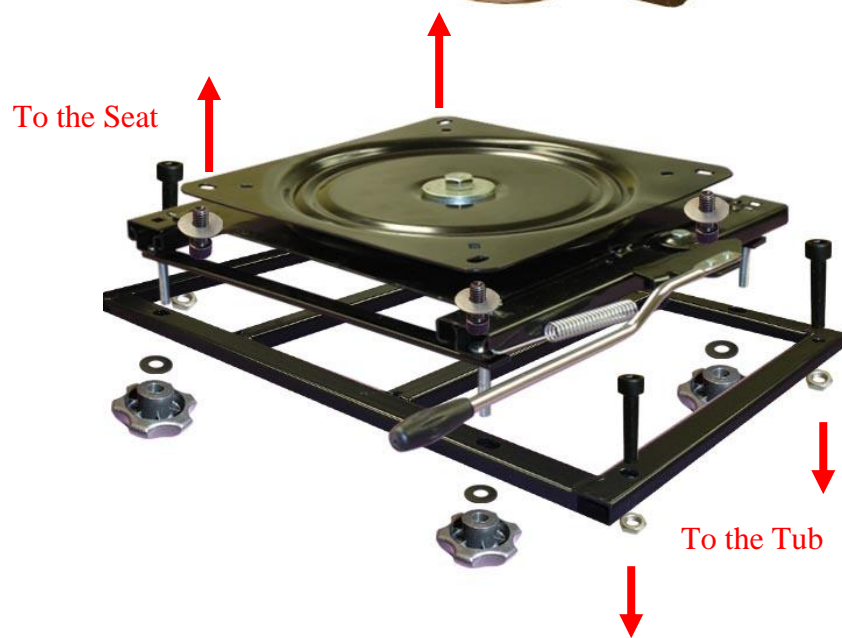

2. Install Swivel on the seat first

If you find it difficult to install the swivel, just turn the top swivel to 45 degree, Let all the corners protrude from the base, that means screw holes from the corners are exposed, then you can easily install the chair and the tub together. .

3. Install the Metal Joint on the tub (Fig. 2)

4. Install the chair with swivel on the Tub or Metal Joint

Step 3 is only for Tub HH009 & HH011

28.8cm
