

Installation Guide

PRODUCT #: CNMST	ITEM: Maestro from Continuum Footspas		
		BRAND:	
		Continuum Footspas	
		SOURCE FOR PURCHASE:	
		SpaSalon.us 950 Herrington Rd. Ste C#237 Lawrenceville GA 30044 706-534-2349 www.SPASALON.US	
FEATURES: The Maestro footspa promises an enlightening experience guaranteed to satisfy the most discriminating clientele. The Maestro is as strong and beautiful as the arch itself. Sleek lines and distinctive looks highlight a footspa that is both inviting and functional. Featuring a cherry wood base, this pipe-less Solojet steady stream water system provides a pulsating massage. The basin is handcrafted, stain resistant and durable made from solid surface material similar to Corian. The dual and independent leg supports pivot upward to support the entire leg, not just the foot. Feet are perfectly positioned for massage and pedicure treatments. SO Sound Acoustic technology relaxes clients by resonating Sound Hearts™ embedded into a comfortable upholstered seat cushion made of Boltafex, an ultra soft, durable leather-like material available in black, burgundy, bone, white, or gray. Most operational functions are controlled by the touch of a button, electronically controlled seat slides and tilts smoothly and quietly. Seat swivels to assist clients in and out of the chair. Adjustable, color-coordinated neck/head rest, convenient cup holder/tray and drain pump are standard. Designed and manufactured in USA.			
SPECIFICATIONS: Dimensions: 70.4" L (179 cm) x 36.2" W (92 cm) x 55" H (140 cm) Electrical: 120V AC, 20 Amp, 60 Hz Separate and Dedicated 20 amp GFCI protected outlet must be used. Suggested Outlet: See Detailed Specifications Plumbing: Hot/Cold supply lines 1/2" ID Notes: Connections located on back of spa Warranty: 5 year warranty on basin, 1 year all other parts and accessories Certifications: ETL/CETL Certified Country of Origin: United States Installed By: Client's Contractor

Installation and Rough-In Information Addendum

- Upper dimensions are in inches, lower dimensions [] are in centimeters.
- The centerline dimension reflects the center of the basin. This does not reflect the center of the stated width as that particular dimension includes the cup holder shelf.
- For two or more units, refer to “Multiple Side X Side – Drawing #2 for reference dimensions.
- If utilizing accessory cart(s), an additional ten (10) inches (25.4 cm) between each unit is recommended. (Carts may be shared to save space)
- Electrical Requirements: One (1) dedicated 20 amp, GFCI protected wall outlet/circuit per unit located within two (2) feet of the rear of the unit. (Actual draw is 5 amps) Each unit will be supplied with a standard three (3) foot grounded power cord.
- Water Supply: One (1) each ½” hot and cold water supply. Preferred location through the wall behind the unit (suggested range 4” to 12” apart on center, 4” to 8” above the finish floor) or may be roughed up from the floor where shown. Provide ½” shut off valves and ½” male NPT connections.
- Water Discharge: Drain pump factory installed (unless otherwise specified). Wall drain required, ¾” ID NPT (male).

Special Information regarding gravity drain installations

- Always check with local plumbing inspectors for possible special requirements pertaining to pedicure units.
- Gravity drain is always preferred. If drain pump is NOT required, unit should be ordered WITHOUT drain pump.
- For gravity drain installations, refer to Plumbing Rough-In Drawing #4 and/or #5. If an air gap is required, also refer to Drawing #6.
- Gravity drain: One (1) 1-1/2” trapped waste is required. Outlet is 1-1/2” female PVC, 3” above the finish floor. A sleeve around the waste line may be necessary to allow for connection to the unit drain connection. Installation is similar to that of a bathtub.

MODEL: THE MAESTRO™
